

Online-Application for Admission/ for Entrance Examination

1. Register for a KUGonline-**applicant account**: <https://online.kug.ac.at/KUGonline/>
(ATTENTION! Please register for a new applicant account only ONCE!)

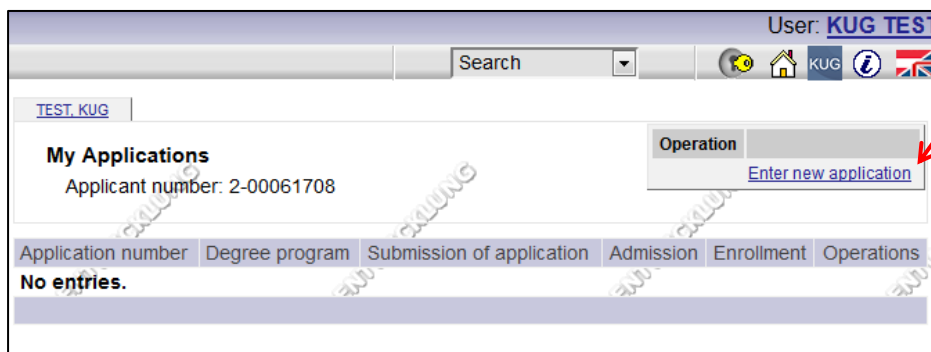

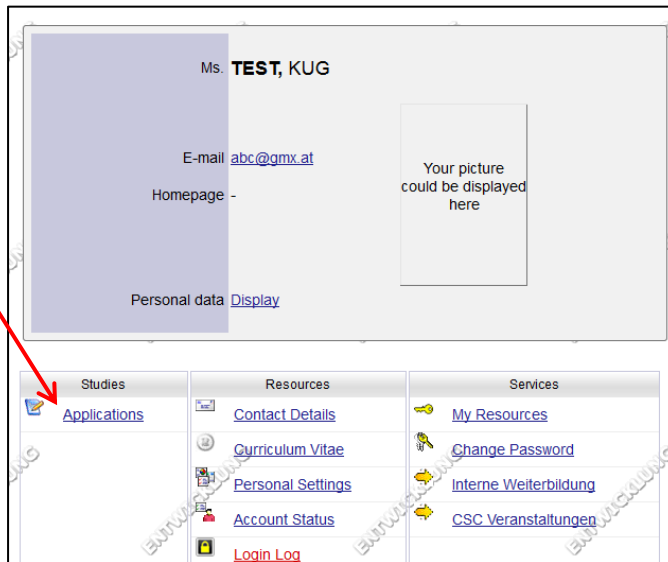

If you are already a student of our university you don't need to create a new applicant account, you can log in with your student account and register for the study you want to (-> step 4)!

2. After creating an applicant account you will get an e-mail with a link for the **activation of your account** (please note your user name!).
3. After your account is activated and you have assigned a password you can **log in** in KUGonline with your user data (user name/e-mail-address and password).

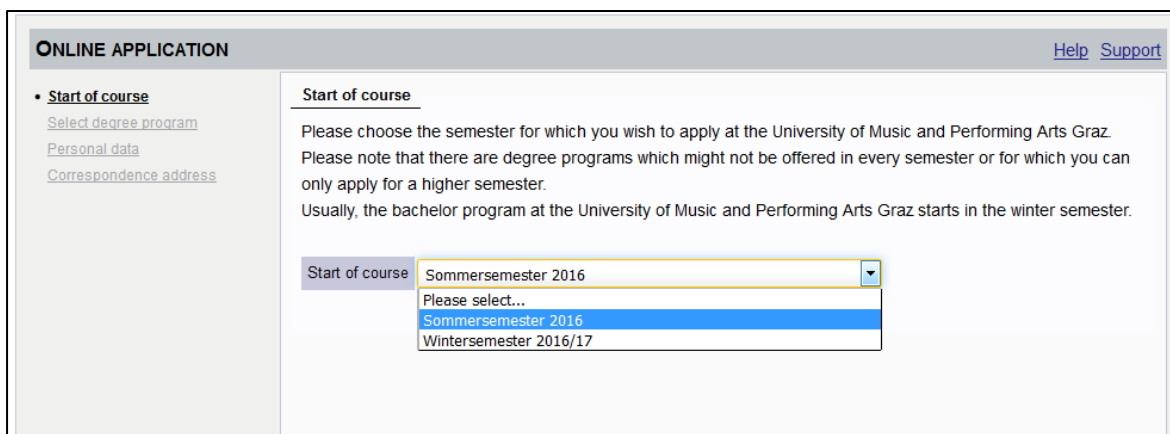

4. Please also do the application, as the registration for an applicant account is not sufficient for the admission!

In KUGonline (your Business Card) you can apply for studies and fill in the online-application at: **„Applications“** -> **„Enter new application“** (ATTENTION: You only have to fill in a registration number if you have already studied at an AUSTRIAN university)

ATTENTION: For entrance exams in February, please choose the „start of course“ with summer semester, for entrance exams from March to September please choose the winter semester!

If you have done your high school diploma not in Austria, please choose „25 – foreign secondary school leaving exam“.

If you have no higher education entrance qualification or if you are not sure about it, please choose „99 – no school leaving certificate“
